## **Annxure-A**

### **Scope of Work for a Daul Source DC DB at HO**

**Project Overview:** This Statement of Work outlines the requirements for the fabrication, installation, and electrical work related to the dual source DC Distribution Board (DB) and associated cabling for Etisalat Afghanistan (EA) head office (HO). The materials used will adhere to specified brands to ensure quality and reliability.

#### **1. Objectives**

- To fabricate and install a new dual source DC DB.
- To supply and install high-quality DC cables, MCBs and accessories.
- To perform the swapping of loads from the old panel to the new DC DB without disrupting the existing operation.
- Ensure compliance with safety standards and regulations throughout the project.

#### **2. Scope of Work**

##### **2.1 DC Distribution Board**

- **Fabrication & Installation:**
  - Construct and install one (1) DC DB at EA HO.
- **Main Input:**
  - Busbar Size: 50mm x 10mm.
- **Output MCBs:**
  - **MCB 100A DC 1P:** Supply and installation of sixty (60) brand new MCBs rated at 100A DC from well reputed brands.
  - **MCB 63A DC 1P:** Supply and installation of ten (10) brand new MCBs rated at 63A DC from well reputed brands.

##### **2.2 Cables**

- **DC Cable Supply:**
  - Supplying one (1) cable of size 1x240mm<sup>2</sup> in two colors (Red & Blue) for two sources. The cables should be Turkish or other reputable brands.
- **Cable Lugs:**

- Supply and install cable lugs suitable for 240mm<sup>2</sup> cables.

## **2.3 Load Swapping**

- **Load Swapping of Racks:**

- Perform DC load swapping of four (4) racks from the old DB to the new DC DB during night hours to minimize disruption to operations.

## **2.4 Cable Pulling**

- **Cable Pulling:**

- Pulling four (4) cables of 1x240mm<sup>2</sup> through the existing cable tray in the ceiling, from the DC source up to the new DC panel.

## **2.5 Installation of Ducts and Accessories**

- **PVC Duct Supply and Installation:**

- Supply and install PVC duct size 100mm x 100mm x 2000mm.

- **Cable Ties:**

- Provide and install cable ties sized 300mm for cable management.

## **3. Deliverables**

1. Completed DC DB installation.
2. Installed MCBs as specified.
3. Supplied and installed DC cables and lugs.
4. Successful load swapping completed with minimal disruption.
5. Installation of PVC ducts and cable ties.

## **4. Acceptance Criteria**

- All installations must comply with industry standards and specifications.
- The functionality of the DC DB should meet operational requirements.
- Successful testing and validation of all electrical connections and load swapping procedures.
- All relevant certificates should be provided.

## **5. Warranty**

- A minimum one-year warranty should be provided for the materials/parts and workmanship. Extended warranty will be a plus point.

## **6. Responsibilities**

- The contractor will be responsible for all labor, materials, tools, and equipment necessary for the successful completion of the project.
- EA will provide access to the site and any necessary onsite support during the installation process.
